

Chevrolet District Sales Manager Mike Quinn sponsored event during the Xfinity 250 for Corvette Indy..

Barry Rector and Jody Hall were the first to arrive saying C-4s rule. Jeff and Carolyn Cox, Jody and David Hall, Paul Habecker, Paul & Cam Amos, John & Ruth Vess, Alan Carnahan & son, Keith & Jan Riley Mike Tann, Buddy & Lorna Hodgdon, Steve Shepard & Joel Bardach, Jerry Croy & Doug Heck, Mark Conreux, Barry Rector, Jewell Pearson & his friend, Brent Williams, Linda & Cassie White, John (Red) & Judi Phillips, John Phillips, Mark Hilligoss, and Jimmie & Donna Driscoll. We all arrived at PEP Boys parking lot on Lafayette Rd. We caravanned to Gate ten of IMS on 30th where we waited for our escort. Richard & Karen had requested if they could come late. Their grandson first football game was on this same day at 9am. We were to meet at 9:30am. Mike Quinn arranged a pass for their Corvette to get close but not in the display, they got tickets and made it in and were pleased to catch up with the group.

We parked the cars in the display and walked to the Chalet to receive lunch. Lunch finished we were addressed by Daniel Hemric about how he started at 4 to 5 years of age racing. He worked his way up to where he is today. He is being considered for Rookie of the Year. He drives for Richard Childress. The speech completed, we then walked to the Driver Trucks, where Mark Hilligoss, Jeff Cox, John Vess, Jerry Croy, Mark Conreux, Brent Williams, David Hall and Jimmie were chosen to be a driver. Instructions on where and how to drive the trucks were given and also to follow what the white shirts tell you to do. We picked up a driver and then made one lap with driver. Now we had drove a lap prior to the driver. Guess who we saw non-other than James Shaver in his rescue suit sitting on pit wall waving at us. Once we dropped off the driver after the lap, we drove around the track to park the Chevrolet Silverado Trail Bosses. Then we were treated to the GM suite where food was waiting on us. We watched the race from the suite. There were TV monitors that showed the race from the track's video system.
