

## **John and Judy Gersting - 2016**

John and Judy have been married 53 years and grew up in Cleveland Ohio. They have lived in Indy since 1970 but with a 20 year break when they taught at the University of Hawaii at Hilo on the Big Island. John and Judy are retired from teaching at the University of Hawaii and semi-retired from IUPUI although they are both still teaching part time there; John in engineering and computer science and Judy in computer science. They both taught at IUPUI for 20 years before going to Hawaii and now they are back. Since they are not fully retired yet they can't say what their favorite part about it would be and think that someday they will have to think about really retiring. Their interests and favorite activities are car clubs because they lead to restaurants. They have not been members for too long and have never been members of any other Corvette Club. John first became interested in Corvettes when he restored a 1954 Vette. Currently they own a 2014 C7, yellow with an orange stripe. Prior to that they owned a 1954, 1967, 1968, 1975, 1987 and a 2003. The thing they like best about CI is that it is a very friendly group and their favorite CI activity is Retiree and Hooky Players Drive n Dines. For their favorite Corvette story to share you will need to corner them and ask about the surprise Corvette purchases that didn't work.
