

Marg and John Herder - 2013

Marg and John are among our newer members in CI. They are both Indy natives, having been born and growing up on the Northside. Marg is happily retired from her career as a lighting designer while John continues in his own business, Indiana Electrical Sales. Marg says the best thing about being retired is having the time to do the things that she would like to do. John's favorite activity is (surprise, surprise) Corvetting- did you know he is a racer? While Marg has so many activities that it was hard to write them all down. They include; genealogy, DAR, Colonial Dames, SAR and I'm sure I missed a few. They have been members of CI for a year and are also members of Circle City Corvette Club. John got interested in Corvettes in 2007. His first Vette turned out to be an upgrade to his motorcycle. While looking for an upgrade to his current bike, he discovered that there were Vettes in his price range; from there he got interested in racing. The Herders currently have a '93 coupe and a '98 convertible - the only two they have ever owned. Their favorite things about CI are meeting new friends and the many, many activities. Particular favorites are the Drive n Dines and racing. They shared the fact that their 19 year old grandson is now a Corvette addict - something that he caught from John.
