

Mark and Donna Schlichter - 2013

Mark and Donna have been married 44 years. They have lived in the Indy area for 38 years; with Mark being born in Mason MI and Donna in Louisville KY. They are looking forward to retirement but at this point are still both working in Mark's medical practice. They have a wide range of interests. Donna has a degree in art, so art has particular appeal to her. She is also a Master Gardener, so working outside in her yard is also a source of great enjoyment. When she is not doing all those things, Donna also likes to travel and read. Mark also enjoys traveling and yard work His other interests include cars, following sports and working out at the gym. The Schlichters have been members of CI for 6 years and have never been members of any other Corvette Club. Their first and only Corvette is an '08 Jetstream Blue Coupe that they purchased when they sold a boat and decided to spend the money on a Vette. BUT, Mark had wanted a Corvette since the '60s when he had a chance to buy one but didn't. The things they like best about CI are the camaraderie, the interaction with all the members and all the social events. Specifically, they enjoy the Drive n Dines, the 2 National Meetings they have attended and the overnight trips. Mark shared a story about their trip to the National Meeting in Colorado with the Minions. They were on a section of straight, flat road in Kansas and decided that the Vettes needed to stretch their legs a bit. They got to 140mph before the passenger seats began to 'squeak'. For those members who might not know what that expression refers to, please just ask President Greg
