

Rich Peters - 2013

Rich and his wife Machele have been married 17 years. Rich was born in Chicago and grew up in Skokie and Glenview IL. Machele was born in Indianapolis and grew up in Marion. They have lived in the Indy area since April of 2011. Rich currently owns his own insurance agency and Machele is a teller at BMO Harris Bank. Their interests include traveling to hot, sunny beaches and all kinds of theater. Rich has been a member of CI since June 2013. He is also a member of Circle City Corvette Club. Rich says he has always been a car nut - any kind of car. For years his wife said "No" to any kind of "special" collectible car until she finally said "Yes". Check out the special plate on his Vette! Rich currently owns a '94 black coupe and it is the only Vette he has ever had - he has had a Firebird and a Trans Am though. Rich likes CI because it is a club without a lot of 'baggage' - it is a low maintenance club with no internal infighting. His favorite CI activities include the short, Hookey Player Drive and Dines, Car Shows and Cruise Ins. He firmly believes that these great cars are for DRIVING. The Vette story that Rich shared involved the time that the tire pressure monitor came loose in the left rear tire - but he didn't know it. All he knew was that it made the front vibrate horribly. He could not go *really fast* because it vibrated too much. It was a really hard to diagnose problem that took a longtime to find - until he took the rear tire off and it rattled.
